| 3. Backpack | 7. Torso | |
| 4. Mag-inverter
Shield | 8. Left Arm | |
| | 9. Arc Lance | |

 Part for Assembly

 Glue Contact Area

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models,
