- Shim for Removal ■
- Optional Part ⊛
- Sub-assembly Stage Number 1
- Detail Shot 🔍
- Reverse Angle ↻

PREPARING THE MODEL FOR ASSEMBLY

Before assembling the model, check that none of the components are missing. Wash and dry thoroughly with an abrasive brush, such as a toothbrush, to remove any mould release agent that may still be on the surface of the parts. To remove any excess resin, such as mould lines, wash the parts in a 50/50 solution. For a more detailed guide to working with resin, visit the Downloads section of the Warhammer Community website.

This kit contains all the pieces required to construct Angron Transfigured. To glue the resin pieces together, use super glue.
