| 6. Mounted Banner Crest | 12. Legs | 18. Banner Crest |
| | | 19. Battle Standard |

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Warhammer Community website. To glue the resin pieces together, use super glue.
