Preparing the Model for Assembly

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Warhammer Community website.

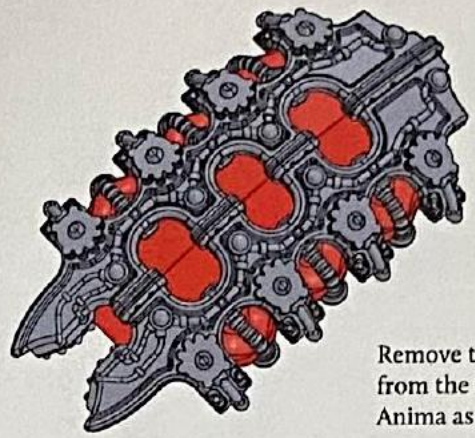

This kit contains all the pieces required to construct a Warlord-Sinister Psi-Titan. To glue the resin pieces together, use super glue.

NOTE: We have cast this kit using the most advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot water for about 1 minute, then carefully bending it back into shape.

If you need to contact the Forge World Customer Service team regarding this model, you can get in touch via email – forgeworld@gwplc.com – or call:
0115 900 4995 within the UK
011 44 115 900 4995 from the USA and Canada
0011 44 115 900 4995 from Australia
011 44 115 900 4995 from Europe and the rest of the world.

Ciricrux Anima Construction

1

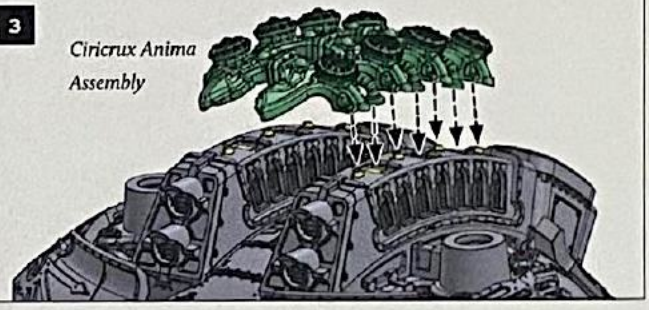

Remove the shims from the Ciricrux Anima as indicated.
