ASSEMBLING THE CITADEL MINIATURES

Before you can embark on your journey across Middle-earth as you scour every corner in search of the Arkenstone, you will first need to assemble your Citadel miniatures. Carefully remove the pieces from the plastic frame found inside the box and then follow the instructions below to assemble each Citadel miniature.

All of the Citadel miniatures in this set will need to be glued together when built; we would recommend Citadel Plastic Glue to do this. A couple of the Citadel miniatures have alternative builds: Thorin Oakenshield can be built wielding either Orcrist or a Dwarven sword and the Oakenshield, whilst Bilbo Baggins can be built either with Sting or his trusty walking stick!
