This kit contains all the pieces required to build a 'Marienburg' class Land Ship. To glue the resin pieces together use Citadel Super Glue.

NOTE: We have cast this kit using the most advanced techniques and the best quality resin, but due to the nature of the casting process your model may contain very slight air bubbles. These can easily be filled with model filler or super glue. Any slight warping of thin parts can easily be corrected by immersing the part in hot water for about 1 minute then carefully bending it back into shape.

THIS IS NOT A TOY
Not suitable for children under 15 years of age.
WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

WARHAMMER FORGE

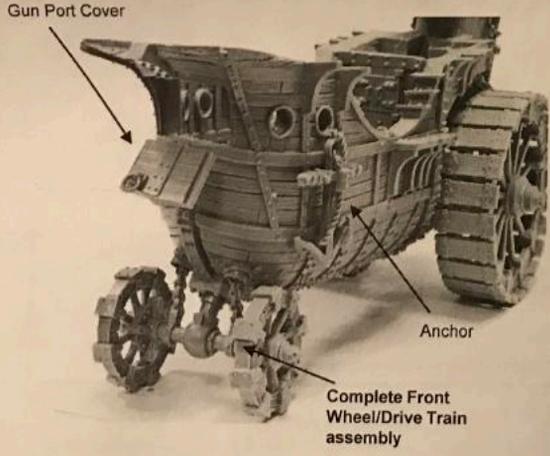

Once the Deck and Furnace Door are glued into place in the Left Hull, attach the Right Hull and glue into place

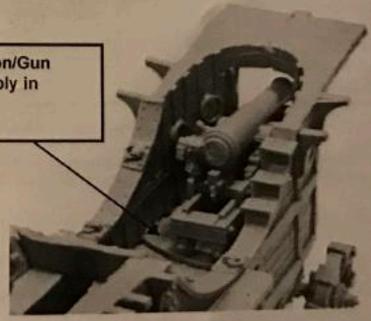

When assembling Cannon, the Carriage and Slide do not have to be glued; this allows the gun to be run out and aimed

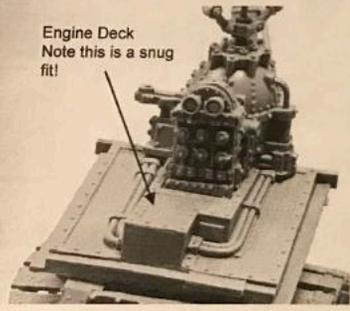

Rear Wheels

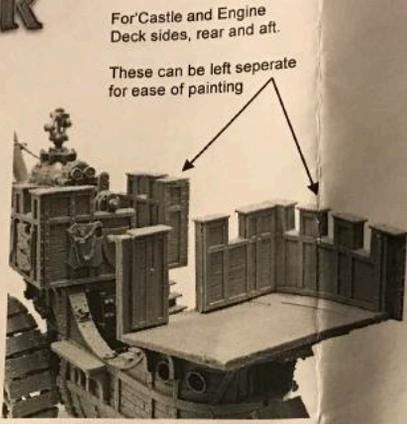

Complete Cannon/Gun Carriage assembly in place at prow

WARHAMMER FORGE

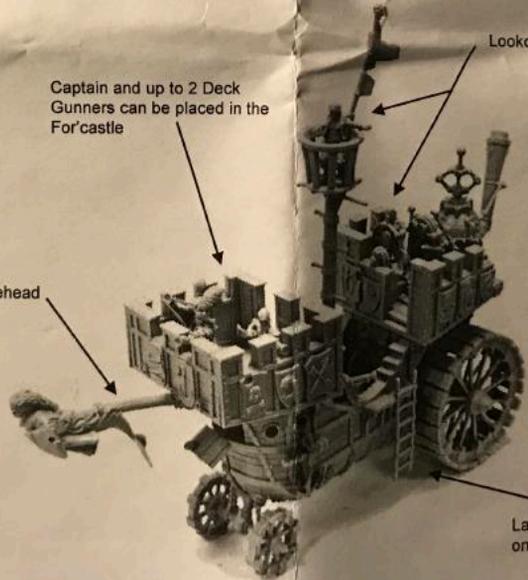

Engine Deck
Note this is a snug fit!

For'Castle and Engine Deck sides, rear and aft.
These can be left separate for ease of painting

Ship's Ensign when attached to Crow's Nest
Mast
One long and one short Velocitrix Control Lever fits either side of engine

Captain and up to 2 Deck Gunners can be placed in the For'castle

Lookout and Engineer

The final Deck Gunner can be placed in a variety of locations

Figurehead

Ladder fits into two notches on Left Hull
