WARHAMMER

THE OLD WORLD

TOMB KINGS OF KHEMRI
TOMB SWARMS

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Warhammer Community website. To glue the resin pieces together, use super glue.

Tomb Swarm 1

Each Tomb Swarm has their own plug and socket shape to make identification easier.

Tomb Swarm 2

Each shim has been highlighted in red and should be removed, check for them behind scarab beetle wings and scorpion tails.
