2

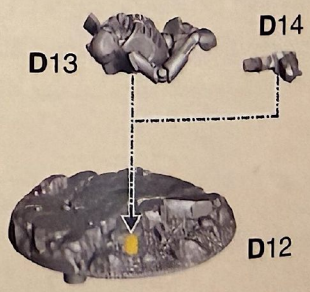

Some Citadel miniatures come with sculpted bases that show a dynamic battlefield scene. The Primaris Captain is based on rough, rocky terrain that comes with two options. **Option A** sees a defeated Necron Warrior at the Captain's feet. **Option B** features the rocky terrain without the Necron Warrior. Either option slots into the hole in the rocky terrain, which itself slots into the two holes on the 40mm base. Whichever you choose, the Primaris Captain will slot into the rocky terrain through two holes, as shown on the left.

Option A

Option B
