SPACE MARINE

Unbox & Build

ASTRAEUS SUPER-HEAVY TANK

Armed with an array of heavy weapons, including paired macro-accelerator cannon, the Astraeus Super-heavy Tank is a vehicle dedicated to smashing open enemy formations and battle-lines using its enhanced repulsor banks to carry it over any obstacles in its way. The Astraeus' ability to waste to vehicles and fortifications is matched only by its ability to withstand damage, as its layered void shields can shrug off all but the most devastating weapon strikes.

THIS IS NOT A TOY

Not suitable for children under 15 years of age.

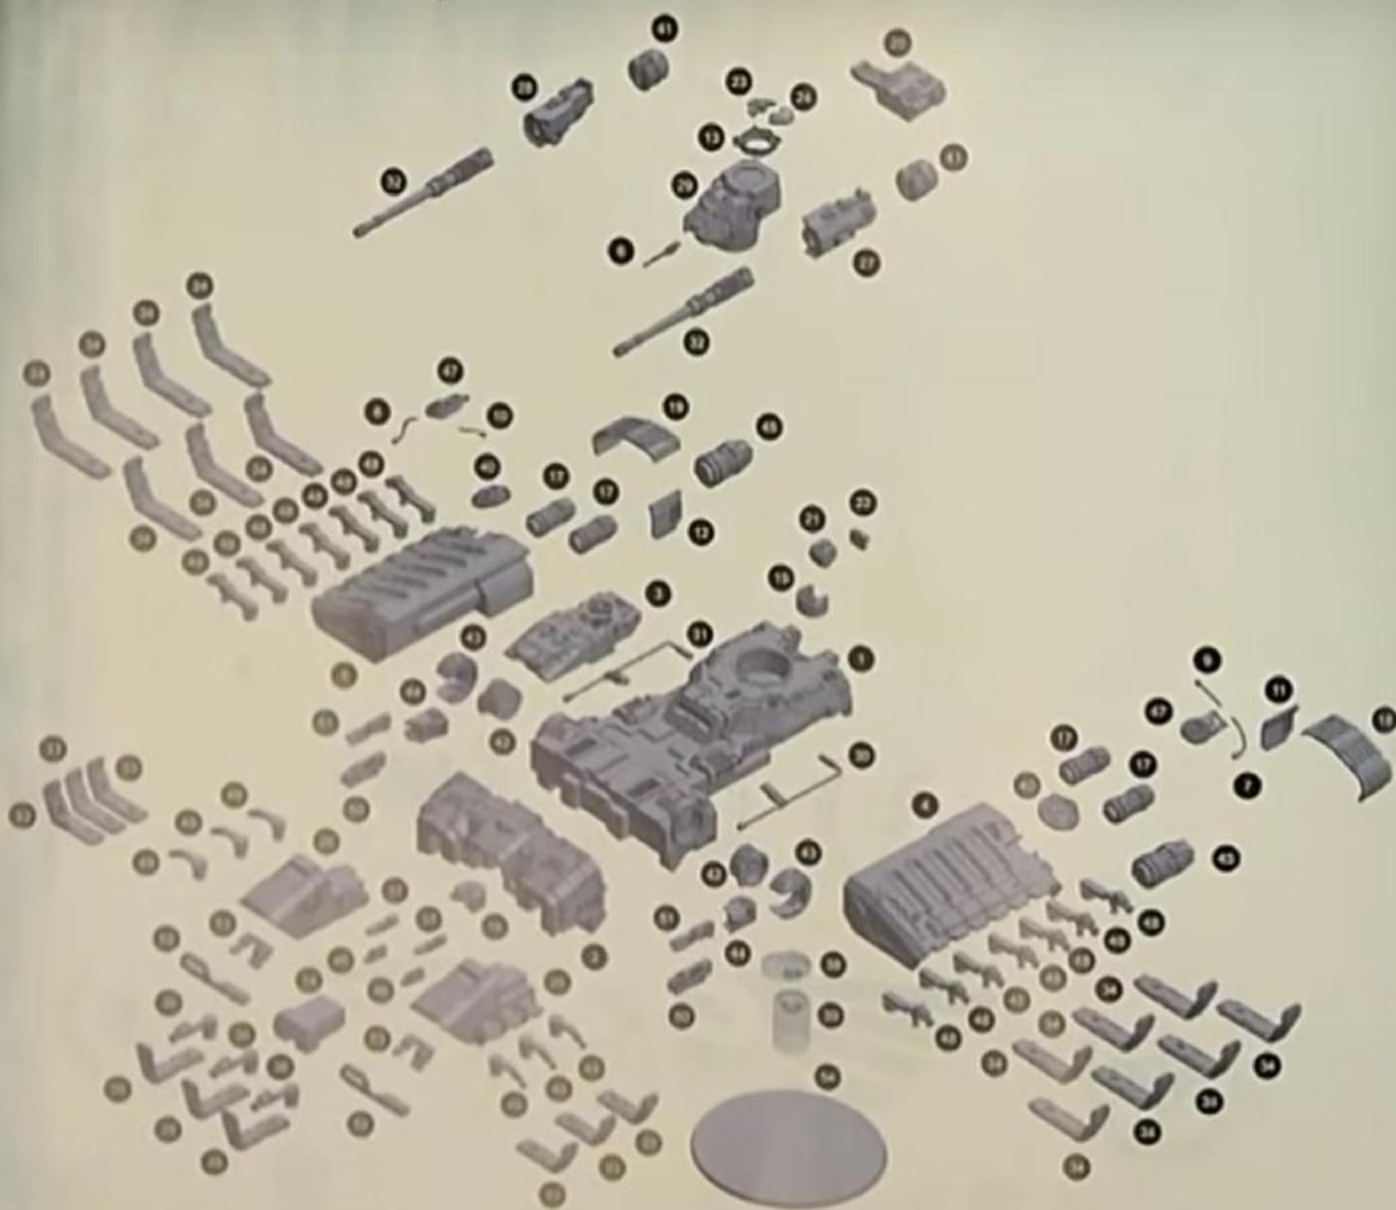

WARNING: Resin dust can be harmful if inhaled. Always wear a dust mask or respirator when sanding or sawing resin parts.

Preparing the Model for Assembly

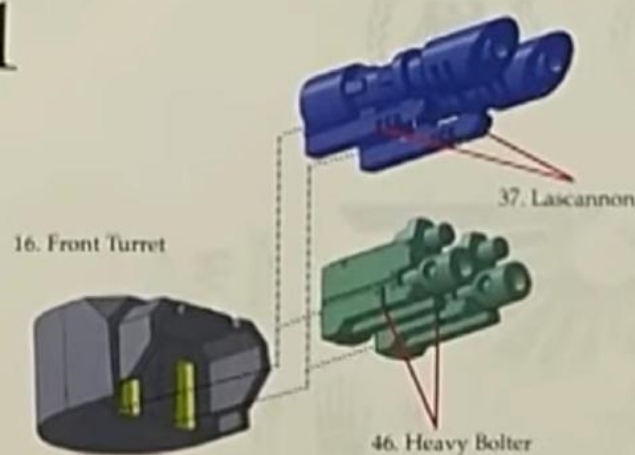

Watch

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts. Then, remove any excess resin such as mould lines, casting gates, vents and shims. For a more detailed guide to working with resin models, go to the Downloads section of the Forge World website.

This kit contains all the pieces required to construct the Astraeus Super-heavy Tank. To glue the resin pieces together, use Citadel Super Glue.

NOTE: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can be filled with model filler or super glue. Any slight warpage of thin parts can easily be corrected by immersing the part in hot water for about 1 minute, then bending it back into shape.

1

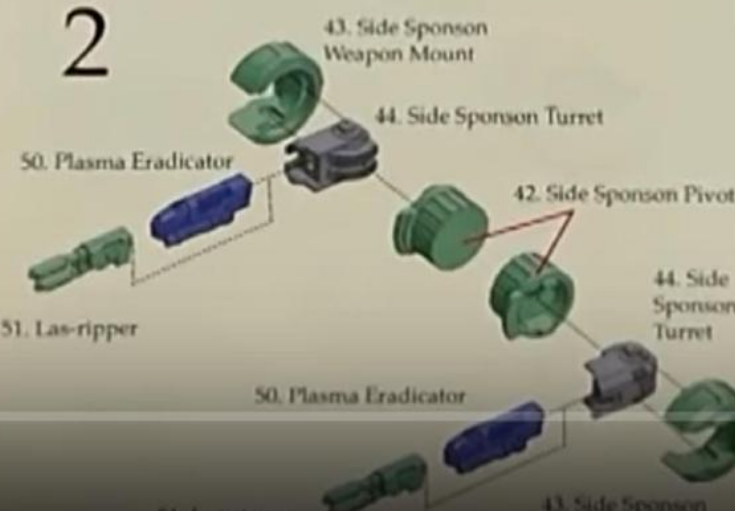

Completed Front Turret

The Front Turret has the option of either Twin-linked Heavy Bolters or Twin-linked Lascannon.

2

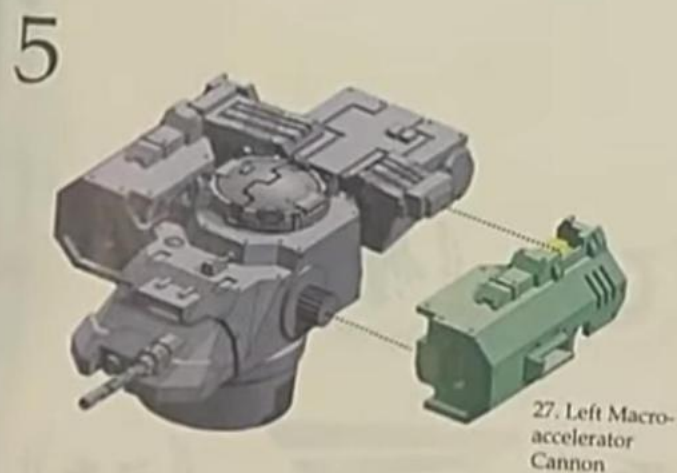

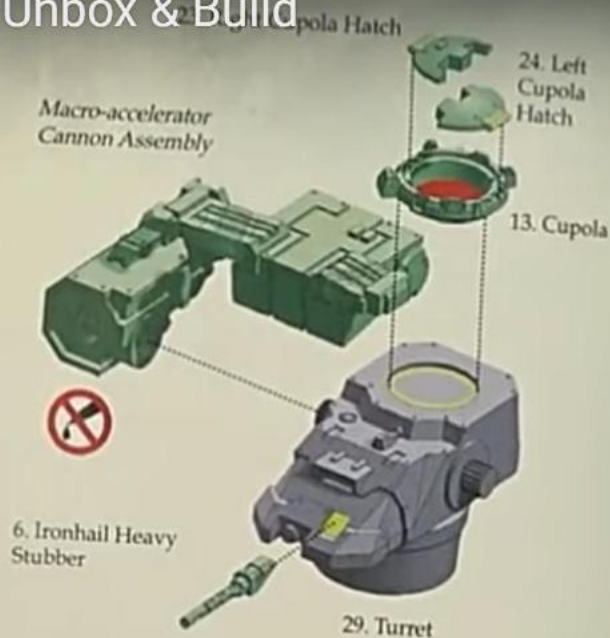

Completed Sponson Turret

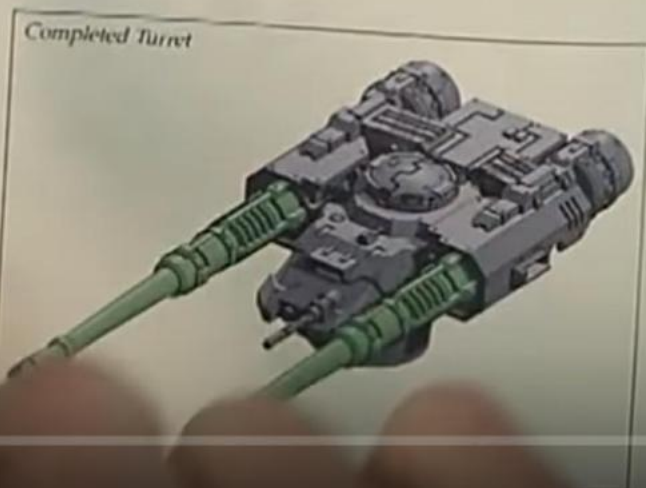

Each Sponson Turret has the option of either

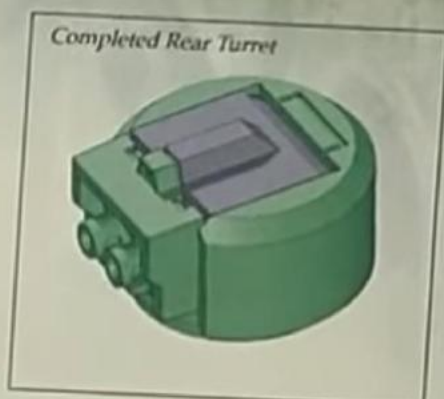

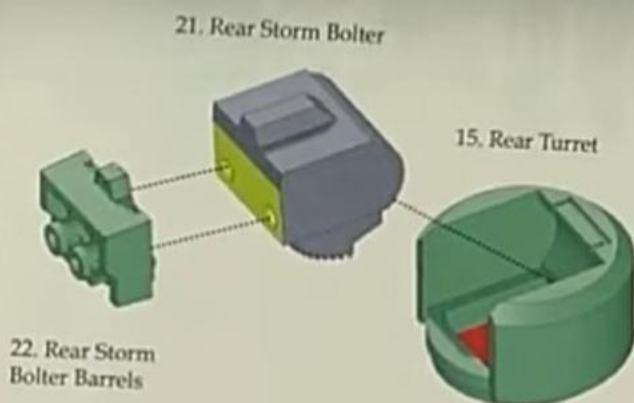

3 Super Heavy 40k Space Marine Tank Unbox & Build

⚠ Only glue the Left Macro-accelerator Cannon to the Ammunition Feed (not the Turret). This will allow the peg on the Turret to rotate freely in the hole so that the weapon can elevate.
