14. Trunk

## ASSEMBLY PREPARATION

### ASSEMBLY LEGEND

Parts for assembly

Shim for removal

Glue contact area

Insets

Do Not Glue

Before assembling the model, wash each part thoroughly with an abrasive brush, such as a toothbrush, to remove any model release agent that may still be on the surface of the parts.

This kit contains all the pieces required to construct *The Fellowship of the Ring™ "Get off the Road" Diorama*. To glue the resin pieces together, use super glue.

Note: We have cast this kit using advanced techniques and the best quality resin, but due to the nature of the casting process, your model may contain small air bubbles. These can easily be filled with model filler or super glue. Any slight warpage of thin parts can be corrected by immersing the part in hot water for about 1 minute, then bending it carefully back into shape.
